IMPORTANT NOTICE!
WATER SERVICE INTERRUPTION
Auburn Street
Watermain Replacement, Whitman

As part of the Auburn Street Water Improvements Project the water main on your street will be temporarily shut down on **Friday JULY 15.**

On **Friday**, the water system will be shut down at approximately **9:00 am.** The system will be placed back online at approximately **4:00 pm.** that day. During this time period, your building **will not** be served by the Town water system.

When the water is turned back on, please allow an outside faucet or bath tub faucet to run for a few minutes. This will clear out any air that may be in the water. If you have problems with your water after it has been turned back on, please speak with our Site Superintendent, Matt Fritz who will be onsite.

Prior to the shutdown, residents should consider filling containers with water for use during the shutdown period.

We apologize for any inconvenience that this may cause.

If you have special needs please let us know in advance.

Thank You.
